# Peony and Iris Price List

FROM

## WHITE LODGE GARDENS

EARLE B. WHITE

P. O. Box 272

Kensington, Maryland.

In presenting this list to flower lovers, it is our aim to send out roots which will give satisfaction at prices which anyone can afford. These gardens are maintained as a source of pleasure to the owner and not as a livelihood. Under these circumstances satisfaction is of more importance than price. Our plants are carefully prepared for shipping, and each order is filled with plants of uniform high quality, regardless of their price. Though it has never been necessary, so far, to replace any plants sent out, because of dissatisfaction, every effort will be made to please all purchasers.

Peony roots will be strong natural divisions of from three to five eyes, cut from two or three year old plants, and will be root pruned to the proper size for planting. From observation we find that roots from young plants will establish themselves more rapidly and give a better account of themselves than will old roots. No attempt has been made at extravagant description, the rating, season (E., Early; M., Midseason; L. M., Late Midseason. L., Late) and general color classification only being given. Those unfamiliar with Peonies may well be governed by the rating of the American Peony Society, which precedes the name of the variety. Where no number appears, the plant is of too recent introduction to be rated as yet. In making selections you are safe in buying any plant rating 8.0 or over. Those rating over 8.5 are of the aristocracy and those over 9.0 are of the very best in existence, there being less than fifty peonies in commerce having a permanent rating over 9.0.

As all peony lovers like to purchase the new things as they are introduced, it is necessary to weed out superseded varieties from time to time. This year, thirty-five varieties, all rating 7.5 or more, have been selected for elimination and plants may be secured correctly labeled at the price of five dollars for fifteen varieties. You may state color preference, and every effort will be made to comply with your wishes.

Terms of sale are cash with order, and no order can be accepted for less than \$2.00. If stock is exhausted, money will be refunded unless you specify substitution. Varieties starred (\*) are subject to release by the Federal Horticultural Board, as they are newly imported plants.

These gardens are located at the first brick house on the north side of Dresden Street, west of Connecticut Avenue, in Kensington. Visitors are always welcome.
